Dear John Glazema,

We are pleased to write in support of the Cold Water Respite Lodge Committee and their vision of building a charitable respite lodge for individuals with disabilities and their families at the Cold Water Ranch.

While we understand that this project is still in the planning stages, we are pleased to learn that you are taking the initiative to explore the concept of providing the opportunity for people with disabilities to book a respite holiday together with their families or caregivers.

Thank you to everyone involved in this worthwhile project.

Yours sincerely,
